CURRICULUM VITAE

PERSONAL DETAILS

	Name and surname	Snezana Vrekić
	Year and place of birth	03.03.1955
	Title	M.Sc.
	E-mail/web site	vreki@yahoo.com
	Phone	+381 64 41 05 002
	Educational/scientific/ artistic field	Mechanical engineering
	University, faculty, organizational unit	Technical college at applied studies, Kragujevac
	Field and subspecialisation	Designing, numerical calculation, computer graphics, descriptive geometry, power transmissions

PROFESSIONAL BIOGRAPHY - DEGREES

Basic studies	Faculty of Mechanical Engineering, University of Kragujevac, 1980.
Magistry thesis	Faculty of Mechanical Engineering, University of Kragujevac, 2002. "Static experiments of thinwalled girders with complex cross section using finite element method"
Doctoral thesis	

PROFESSIONAL BIOGRAPHY – TITLES/ Work experiens

Year of election (reelection)	
2016.-	Technical college at applied studies, Kragujevac / Lecturer for Professional Studies-reelection
2010	Technical college at applied studies, Kragujevac / Lecturer for Professional Studies
2007.	Factory "Zastava automobili"- R&D Centre Institute / Research associate - reelection
2003.	Factory "Zastava automobili"- R&D Centre Institute / Research accessory
1980-2002	Factory "Zastava automobili"- R&D Centre Institute / Best engineer
1980-1981	School for adult education "RADNIK"- "Voja Radic" Kragujevac / Lecturer

PROFESSIONAL BIOGRAPHY - TRAINING

(in the country, abroad, study visits, visiting professorships)

Year and duration	
1984-1 month	Study stay in German-DAAD foundation, Germany

PARTICIPATION IN PROJECTS OF INTERNATIONAL RELEVANCE AND IN NATIONAL PROJECTS LASTING SEVERAL YEARS

List of projects
Project of the Ministry of Education and Science of the Republic of Serbia for the period 2011-2013, "Research of vehicle safety as part of the cyber system: Driver-Vehicle-Environment", TR35041
Research and development of Zastava 10 on compressed natural gas
Software development for explicit non-linear dynamic analysis-TR 12005
Research and reconstruction of Zastava vehicles in order to meet regulations and market demands- TR6301B
Development of software for strength analysis and verification of service life of the construction-TR6204

'Development and accomplishment restyling passenger cars, equipments, systems and components', Ministry of Science, Technologies and Development of Republic Serbia, (MIS.3.06.0040.B), 2002-2004.

'Development of methods and software for analysis, simulation and optimization of processes of large strain in machine industry', Ministry of Science, Technologies and Development of Republic Serbia, (MIS.3.07.0258.A), 2002-2004.

AWARDS AND ACKNOWLEDGEMENTS

Year	Name of the awards/acknowledgements
2005	Миловановић М., Врекић С., Грубиша М., Prototype of the Koral car body according to ECE 94, technical solution (M82)
2005.	Based on the decision of the Program Committee of the YU INFO 2005 Conference, has praised the work
2014	Newspaper "International Journal of Mechanical Engineering and Automation"- praised work presented at the RaDMI 2013 gathering
